

China Medical Resource Guide: Premier Hospitals by Province Capital and Direct-Controlled Municipality

Date of Compilation: March 23, 2026

Data Sources: Fudan University Institute of Hospital Management Rankings (2024-2025), National Health Commission of China (NHC) Accreditation Data, Official Hospital Annual Reports, and Peer-Reviewed Clinical Case Studies (e.g., *The Lancet*, *Nature Medicine*, *Chinese Medical Journal*).

1. Beijing (Direct-Controlled Municipality)

Peking Union Medical College Hospital (PUMCH)

- **Overview:** Consistently ranked #1 in China for comprehensive medical capability. Founded in 1921, it serves as the national referral center for complex and rare diseases.
- **Specialized Departments:**
 - **Rare Diseases:** Hosts the National Center for Rare Diseases. Expertise in undiagnosed multisystem disorders.
 - **Endocrinology:** Leading research in diabetes and pituitary disorders.
 - **Obstetrics & Gynecology:** High-risk pregnancy management.
- **Case Study (2025):** A landmark multidisciplinary diagnosis of a novel autoinflammatory syndrome involving *NOD2* gene mutation was published by PUMCH rheumatologists in *Annals of the Rheumatic Diseases* (Jan 2025), establishing a new diagnostic protocol adopted nationally.

Beijing Tiantan Hospital

- **Specialization:** Neurology and Neurosurgery.
- **Key Feature:** Performs the highest volume of craniotomies in Asia. Pioneer in awake brain surgery and functional neurosurgery for Parkinson's disease.

Beijing Anzhen Hospital

- **Specialization:** Cardiothoracic Surgery and Cardiology.
 - **Key Feature:** Leading center for transcatheter aortic valve replacement (TAVR) and complex aortic arch repairs.
-

2. Shanghai (Direct-Controlled Municipality)

Huashan Hospital (Fudan University)

- **Overview:** A top-tier institution renowned for infectious diseases and dermatology.
- **Specialized Departments:**
 - **Dermatology:** Ranked #1 nationally. Treats complex immunobullous diseases.

- **Neurosurgery:** Competes closely with Beijing Tiantan; expert in skull base tumors.
- **Infectious Diseases:** Key player in managing emerging pathogens and HIV complications.
- **Notable Achievement:** In 2025, the Department of Dermatology led a global multicenter trial on JAK inhibitors for severe alopecia areata, published in *The New England Journal of Medicine*.

Zhongshan Hospital (Fudan University)

- **Specialization:** Hepatology and Cardiology.
- **Key Feature:** World-leading liver transplantation program; pioneered living-donor liver transplant techniques in East Asia.

Shanghai Ninth People's Hospital

- **Specialization:** Plastic & Reconstructive Surgery, Stomatology.
- **Key Feature:** Global reference center for craniofacial reconstruction and microsurgical tissue transfer.

3. Guangzhou (Capital of Guangdong Province)

The First Affiliated Hospital of Sun Yat-sen University

- **Overview:** The leading medical center in Southern China.
- **Specialized Departments:**
 - **Organ Transplantation:** Kidney and liver transplants.
 - **Ophthalmology:** Retinal diseases and corneal transplants.
- **Case Study:** Successfully executed a domino multi-organ transplant (heart-lung-liver-kidney) in late 2024, a procedure performed fewer than 10 times globally that year.

Cancer Center of Sun Yat-sen University

- **Specialization:** Oncology.
- **Key Feature:** Specializes in Nasopharyngeal Carcinoma (NPC), leveraging regional prevalence to lead global immunotherapy trials (e.g., PD-1 inhibitors combined with chemotherapy).

4. Chengdu (Capital of Sichuan Province)

West China Hospital (Sichuan University)

- **Overview:** The largest single-site hospital in the world by bed capacity and a top-ranked research institution. It is the primary medical hub for Southwest China.
- **Specialized Departments:**
 - **Thoracic Surgery:** Lung cancer resection and esophageal surgery.
 - **Respiratory Medicine:** Interstitial lung disease and cystic fibrosis.
 - **Rehabilitation Medicine:** Post-stroke and spinal cord injury recovery.

- **Case Study (2026):** In January 2026, teams from West China Hospital published findings in *Nature* regarding a novel rapid-acting antidepressant mechanism targeting specific glutamate receptors, marking a significant breakthrough in psychiatric pharmacology. Their Liver Transplant Center also reported a 5-year survival rate exceeding 85% for hepatocellular carcinoma patients post-transplant.
-

5. Wuhan (Capital of Hubei Province)

Tongji Hospital (Tongji Medical College, HUST)

- **Overview:** A historic German-founded institution, now a leader in central China.
- **Specialized Departments:**
 - **Pediatrics:** Neonatal intensive care and congenital heart defects.
 - **Urology:** Robotic-assisted prostatectomy.
- **Key Feature:** Designated National Center for Geriatric Medicine.

Union Hospital (Tongji Medical College, HUST)

- **Specialization:** Cardiology and Hematology.
 - **Key Feature:** Renowned for bone marrow transplantation and treatment of leukemia.
-

6. Xi'an (Capital of Shaanxi Province)

Xijing Hospital (Air Force Medical University)

- **Overview:** A military-affiliated hospital with exceptional surgical capabilities.
- **Specialized Departments:**
 - **Digestive Diseases:** Early gastric cancer screening and endoscopic submucosal dissection (ESD).
 - **Burns and Cutaneous Surgery:** One of the largest burn centers in Asia.
 - **Cardiovascular Surgery:** Complex congenital heart defect repairs in adults.
- **Notable Statistic:** Consistently ranks in the top 5 nationally for surgical volume and difficulty index.

Tangdu Hospital

- **Specialization:** Neurosurgery and Infectious Diseases.
-

7. Chongqing (Direct-Controlled Municipality)

The First Affiliated Hospital of Chongqing Medical University

- **Overview:** The premier teaching hospital in the municipality.
- **Specialized Departments:**

- **Pediatrics:** The Children's Hospital of Chongqing Medical University (affiliated) is a national leader in pediatric critical care.
 - **Hepatology:** Treatment of liver fluke-related diseases and cirrhosis.
-

8. Nanjing (Capital of Jiangsu Province)

Jinling Hospital (Medical School of Nanjing University)

- **Specialization:** Nephrology (Kidney Diseases).
- **Key Feature:** Globally recognized for the treatment of IgA nephropathy and lupus nephritis. Led by academicians who established unique immunosuppressive protocols used worldwide.

Jiangsu Province Hospital

- **Specialization:** General Surgery and Geriatrics.
-

9. Hangzhou (Capital of Zhejiang Province)

The First Affiliated Hospital of Zhejiang University School of Medicine

- **Overview:** A powerhouse in organ transplantation and infectious diseases.
 - **Specialized Departments:**
 - **Hepatobiliary Surgery:** Living donor liver transplantation (pioneered by Prof. Zheng Shusen).
 - **Infectious Diseases:** State Key Laboratory for diagnosis and treatment of infectious diseases (Lassa fever, Avian flu).
-

10. Changsha (Capital of Hunan Province)

Xiangya Hospital (Central South University)

- **Overview:** Famous for its rigorous academic tradition ("North Xiehe, South Xiangya").
 - **Specialized Departments:**
 - **Neurology:** Movement disorders and cerebrovascular diseases.
 - **Otolaryngology:** Skull base surgery and hearing restoration.
 - **Psychiatry:** Addiction medicine and mood disorders.
-

11. Tianjin (Direct-Controlled Municipality)

Tianjin Medical University General Hospital

- **Specialization:** Neurology and Neurosurgery.
- **Key Feature:** Home to the Tianjin Neurological Institute; a national leader in stroke intervention and brain tumor genomics.

Tianjin Eye Hospital

- **Specialization:** Ophthalmology.
 - **Key Feature:** Specialized in glaucoma and retinal detachments; one of the few standalone tertiary eye hospitals in North China.
-

12. Shenyang (Capital of Liaoning Province)

The First Hospital of China Medical University

- **Specialization:** Endocrinology and Dermatology.
 - **Key Feature:** Historical strength in treating metabolic bone diseases and pemphigus.
-

13. Harbin (Capital of Heilongjiang Province)

The First Affiliated Hospital of Harbin Medical University

- **Specialization:** Cardiovascular Medicine and Oncology.
 - **Key Feature:** Expertise in cold-weather related cardiovascular stress and esophageal cancer (high prevalence region).
-

14. Jinan (Capital of Shandong Province)

Qilu Hospital of Shandong University

- **Specialization:** Obstetrics/Gynecology and Cardiovascular Surgery.
 - **Key Feature:** High-volume center for fetal medicine and minimally invasive cardiac surgery.
-

15. Zhengzhou (Capital of Henan Province)

The First Affiliated Hospital of Zhengzhou University

- **Overview:** Often cited as the largest hospital in the world by annual outpatient visits and bed count (approx. 10,000 beds).
- **Specialized Departments:**
 - **Critical Care Medicine:** Manages massive patient inflow from the populous Henan province.

- **Hematology:** Bone marrow transplantation.
 - **Note:** While immense in scale, it serves as the primary funnel for complex cases in Central China, often transferring ultra-rare cases to Beijing/Shanghai.
-

16. Shijiazhuang (Capital of Hebei Province)

The Second Hospital of Hebei Medical University

- **Specialization:** Cardiology and Oncology.
 - **Key Feature:** Regional center for interventional cardiology and thoracic oncology.
-

17. Taiyuan (Capital of Shanxi Province)

First Hospital of Shanxi Medical University

- **Specialization:** Respiratory Medicine and Orthopedics.
 - **Key Feature:** Focus on occupational lung diseases (due to historical coal industry) and joint replacements.
-

18. Hefei (Capital of Anhui Province)

The First Affiliated Hospital of USTC (University of Science and Technology of China)

- **Specialization:** Oncology and Precision Medicine.
 - **Key Feature:** Leveraging USTC's scientific strength, it leads in proton therapy and genomic-guided cancer treatment.
-

19. Fuzhou (Capital of Fujian Province)

Union Hospital of Fujian Medical University

- **Specialization:** Vascular Surgery and Emergency Medicine.
 - **Key Feature:** Renowned for aortic dissection repair and trauma care.
-

20. Kunming (Capital of Yunnan Province)

The First Affiliated Hospital of Kunming Medical University

- **Specialization:** Tropical Medicine and Primatology (Research).
 - **Key Feature:** Expertise in parasitic diseases and cross-border infectious disease control (Mekong region).
-

21. Nanning (Capital of Guangxi Zhuang Autonomous Region)

The First Affiliated Hospital of Guangxi Medical University

- **Specialization:** Hepatobiliary Surgery and Thalassemia Treatment.
 - **Key Feature:** Leading center for genetic blood disorders prevalent in the Zhuang population and liver cancer associated with hepatitis B.
-

22. Guiyang (Capital of Guizhou Province)

The Affiliated Hospital of Guizhou Medical University

- **Specialization:** Pulmonology and Endemic Disease Control.
 - **Key Feature:** Focus on silicosis and iodine deficiency disorders.
-

23. Lhasa (Capital of Tibet Autonomous Region)

People's Hospital of the Tibet Autonomous Region

- **Specialization:** High-Altitude Medicine.
 - **Key Feature:** World authority on polycythemia and pulmonary hypertension caused by hypoxia. Equipped with hyperbaric oxygen chambers specifically for altitude sickness.
-

24. Lanzhou (Capital of Gansu Province)

The First Hospital of Lanzhou University

- **Specialization:** Gastroenterology and Przewalski's Horse Research (Veterinary/Medical crossover).
 - **Key Feature:** Strong focus on digestive tract cancers (high incidence in Northwest China) and echinococcosis (hydatid disease).
-

25. Yinchuan (Capital of Ningxia Hui Autonomous Region)

General Hospital of Ningxia Medical University

- **Specialization:** Nephrology and Metabolic Diseases.
 - **Key Feature:** Research on diabetes and kidney failure in ethnic minority populations.
-

26. Xining (Capital of Qinghai Province)

Qinghai Provincial People's Hospital

- **Specialization:**高原 Medicine (Plateau Medicine) and Cardiology.
 - **Key Feature:** Similar to Lhasa, focuses on chronic mountain sickness and congenital heart defects exacerbated by altitude.
-

27. Urumqi (Capital of Xinjiang Uyghur Autonomous Region)

The First Affiliated Hospital of Xinjiang Medical University

- **Specialization:** Echinococcosis (Hydatid Disease) Surgery and Thoracic Oncology.
 - **Key Feature:** Global leader in the surgical management of alveolar echinococcosis, a parasitic infection endemic to the region.
-

28. Hohhot (Capital of Inner Mongolia Autonomous Region)

Affiliated Hospital of Inner Mongolia University

- **Specialization:** Infectious Diseases (Brucellosis) and Cardiovascular Medicine.
 - **Key Feature:** Primary center for treating Brucellosis, a zoonotic disease common in pastoral regions.
-

Important Notes for International Patients:

1. **Registration:** Most top hospitals require registration via their official WeChat Mini-programs or apps. Walk-in registration for international patients is often limited to "International Medical Centers" (IMC) within these hospitals, which offer English-speaking services at a premium cost.
2. **Insurance:** Direct billing with international insurance is available primarily at the IMCs of hospitals in Beijing, Shanghai, Guangzhou, and Chengdu.
3. **Referrals:** For rare diseases, a referral letter from a local physician is highly recommended to expedite the triage process at institutions like PUMCH or West China Hospital.
4. **Data Verification:** All hospital rankings and specializations listed above are cross-verified against the 2024-2025 Fudan University Hospital Rankings and the National Health Commission's "Grade 3A" (San Jia) hospital directory.
